

# The New England Safe Company

**Model**      **US-1206-KK**

This is another great little Under-counter Safe. It features added height to the US-1 design giving it more capacity.

The 4 ½" wide slot with an anti-fish baffle is large enough for envelopes to be inserted easily.

SIZE is 12 inches high with a 6 inch x 6 inch base.

¼ inch steel plate high quality welded body

½ inch thick steel door.

Holes in the bottom allow for anchoring to a floor or shelf. Holes can be made in the side or back for anchoring.

The Lock is a dual key safe deposit box lock.

Just like the other safes in our Under-counter Safe Series, This can be a great choice for mounting in a delivery truck to secure payments or at the counter for a quick trim of the till in a cash register drawer.
